## about us

GENERIC, a technology-induced log of laminates is a distinctive platform providing a vast collection of laminates belonging to different categories. It has classic pieces having timeless inesse. It also has next-generation pieces having a contemporary feel. This catalogue addresses nature better than all as it has some of the gorgeous pieces that, imitate the beauty of wood to the fullest. Having them around can make you feel one with wilderness and poise altogether. Apart from that, there are certain pieces having the look and feel of the real fabric.

Getting them on board is an assertion of inviting prime elegance into space. Not to miss out on one of the most loved finishes of the current time, matt, generic also has an inclusion of striking matt finish laminates.

The soft and subtle finish of matt is accompanied by pallid hues that narrate the tale of sobriety. The collection has also covered elements of glamour. All in all, it is a go- to-almanac of surface decor elements having best of both the worlds..
